Hey there- Maybe I've not been looking in the right places, but I wasn't able to find a complete list of all TM's that was searchable, or a single, truly complete source of all manuals...So I created them. Here: is a link to: 1. A searchable spreadsheet with all TM's listed by Number, Title and Reference. Click any Number or Title to link to the online PDF version of that TM 2. An online folder with all LMTV (M1078 Technical Manuals 3. An online folder with all MTV (M1083) Technical Manuals Feel free to share, download, etc. Please let me know if you find any errors - I'll update docs if you do. Hope this helps someone. I would post under TM's but I can't - if anyone can, please feel free. Cheers Spread sheet is a great help. Some PDF readers have a searchable feature that is compatible with the PDF files. Not sure how/why it worked out as it did but when opened mine after downloading with my Linux PDF reader it automatically created search feature AND, go to page links on all the Content and Index pages. etc. Not sure if that is a Linux thing or if it is built into the military pdf files orrr?? A moderator can move this message to TM's. Hopefully, they will do it with permanent automatic link back then sticky that in this forum. That way lazy folk like me will enjoy the option to open two windows from the start. Otherwise, you gotta: .leave FMTV forum to go to TM forum..... open it . scroll thru (or search) all the TM's to find the right thread . open needed thread and it's links . then open another SSoldiers in a different window in order too... . go again to FMTV forum . and again open the thread you left to compare/analyze info there with info in TM ... whew Hi - I'm new to the FMTV world. Can someone tell me where I'd find TMs for a M1085A1 please? Ignore that - now see it's all in the M1083 TM Jammyhl- Just a quick head's up - NO A1 manuals were ever printed (to PDF) - they are only through special govt diagnostic software that requires safe access, etc. No one I am aware of has printed PDF and made available. It's one of my priorities to do it. Meanwhile, all TMs on my site are for the A0 models - there are very few differences, and most of them will probably not affect what you are doing (i.e., the engine changed from 3116 to 3126, the style of the front light switch changed, etc.). - most of what you'll read here. SS is a great resource (and also chock full of BS) - you will know who vomits opinions (state as fact) and who has the real fast world experience. As for TM's - you most likely want to become familiar with -10 (manual of operators and troubleshooting) and -24P (chart parts) first. Welcome aboard - What are you going to do with yours? We want to take a 6x6 on a land trip around Europe then on the Silk Road, basically to let my 2 years (which will be 5 then) live history, culture, geography, philosophy, etc. After that it could be the United States, Oz, or go to the hometown of my wife to be Cape Town. I have a builder lined up in Germany. We were considering the MAN Kat A1 or MAN TGS, but we recently hit the S divideS as a potential chassis. Looking at the viability of parties outside the United States. I would definitely want to make the changes faster. Keen to see the lockers too. Awesome - you just sent a PM Great info dronsen! This has to be sticky on the FMTV/LMTV forum threads. What do I have here? Official websites use .mil A .mil web site belongs to an official government organization in the United States.
